

This code serves as a representation of the intended visual appearance of the website, predominantly relying on frontend components. As a result, certain functionalities may not be available. My team and I dedicated our efforts to meticulously addressing the finer details of this website. Let us now dive into the purpose or objective of the README document.

# HOW TO RUN THE WEBSITE:

- 1- clone the repository on vscode.
- 2- create a new terminal.
- 3- type “npm run start” and wait until it opens in the default browser.

# HOW TO USE THE WEBSITE:

Our goal here is to create a UI for the stakeholders of the banking website, which are the clients, bankers and admins. I myself made most of the client's page and made the whole banker page. At the previous screenshot which shows the home page the only accessible

features are the login and the register.

The screenshot shows the 'Registering for an account' page. At the top, there is a logo for 'Godfather Banks' and a 'Home' button. The main form is titled 'Personal Information' and contains fields for 'Full Name', 'Nationality', 'National/Passport ID', 'Email Address', and 'Phone Number'. Below the form is a note: '• No Bank Account? Create Now' with a 'Next' button. At the bottom, there are two buttons: '1 Personal Info' and '2 Account Info'.

We have incorporated certain constraints to prevent users from proceeding if, for instance, they forget to input their email address or if the domain name is missing.

The screenshot shows the 'Login' page. At the top, there is a logo for 'Godfather Banks' and a 'Home' button. The main form has 'Username' and 'Password' fields, both containing placeholder text ('client' and '\*\*\*\*\*' respectively). Below the fields is a 'Login' button. At the bottom, there is a note: '• No Account? Create Now' and '• Forgot Password?'.

When the login button is clicked in the login page, only specific usernames such as 'client', 'banker', and 'admin' are allowed, each leading to their respective associated pages when the login button is clicked.

Client's page:

The screenshot shows the client's dashboard for Godfather Banks. At the top, it displays "Welcome Back, Mohamed !". Below that, the account balance is shown as "EGP 52,550". There are several service icons: "CREDIT CARDS" (with a credit card icon), "LOANS" (with a house and dollar sign icon), "TRANSACTIONS" (with a double arrow icon), "TRANSFERS" (with a bank transfer icon), and "BILLS" (with a bill icon). At the bottom, there is a copyright notice "© 2023 Godfather Banks. All rights reserved." and links for "Privacy Policy" and "Terms of Service".

This screenshot shows the "Payment Details" page. It displays the selected bill as "Water Bill" and the price as "EGP 56". Below this, there is a "Payment Methods" section with three options: "Credit Card", "Bank Transfer", and "PayPal" (which is checked). Two buttons are present: a blue "Proceed to Payment" button and a grey "Back" button. At the bottom, there is a copyright notice "© 2023 Godfather Banks. All rights reserved." and links for "Privacy Policy" and "Terms of Service".

Admin's page:

The screenshot shows a web application interface for 'Godfather Banks'. At the top, there is a blue header bar with the 'Godfather Banks' logo on the left and a bell icon with a 'Logout' button on the right. Below the header, there are two small buttons: 'Requests' and 'Send Announcement'. A large central area contains a text input field with the placeholder 'Enter your announcement here...'. Below the input field, a green success message reads 'The announcement has been sent.' To the right of the input field is a blue 'Submit' button. At the bottom of the page, a dark blue footer bar displays the copyright notice '© 2023 Godfather Banks. All rights reserved.' and links for 'Privacy Policy' and 'Terms of Service'.
